

PROGRESS REPORT

- **What was achieved last week?**

I achieved my goal to fix the errors and tried to add now the new plan our group planned.

- **What is the focus of today?**

Today I want to challenge myself with the new ideas we want as a team to study and apply it to our website.

- **What blockers exist?**

The blocker for me this week is trying new ideas and applying it.

- **What went well?**

What went well is that I just did the web and tried adding the notification and mail area.

- **What didn't go well?**

Is that trying to apply the ideas to the web and connecting it to the backend.

- **What should we start doing?**

We should start by letting our tester test the program for errors.

- **What should we stop doing?**

So for me i still dont find any problems because we now tried to communicate more and our project manager did her best in asking us for updates.

- **What should we continue doing?**

We should continue maintaining strong teamwork and clear communication among all members. Collaborating effectively and supporting each other will help us complete the project successfully.
